

POLICY STATEMENTS

TSH Resources Berhad developed the following Forest Management policy statements to achieve the full range of forestry benefits, which the forests are able to provide.

The policy statements are as follows:

- i. TSH Resources Berhad would strive to maintain the forests resources within its Sustainable Forest Management License Agreement area that delivers the full range of benefits (for e.g. Sustained yield of high quality timber and other wood products) which the forests are able to provide for currently and in the future.
- ii. Environmental activities shall be integrated with our normal operations so that biological diversity is assured throughout the Sustainable Forest Management License Agreement area. Therefore, TSH Resources Berhad would apply forest management practices based on the sustainable forest management principles.
- iii. The local communities are among our key stakeholders. Therefore, TSH Resources Berhad remains committed towards the social aspects of managing the Sustainable Forest Management License Agreement area, where care, safety, health, compassion and consideration are a part of the day to day operations; and
- iv. Through our Sustainable Forest Management system, we will endeavor to :
 - Protect the integrity of the Sustainable Forest Management License Agreement area under our management.
 - Acquire and maintain third party certification by 2014 in accordance with the State policy.
 - Conduct forest management activities as prescribed in this Forest Management Plan in accordance with the conditions as stipulated in the Sustainable Forest Management License Agreement and Sustainable Forest Management principles.
