

# Environment

TSH Resources Berhad affirms the importance of urgent environmental protection and is fully committed to undertake its activities in an environmentally responsible manner and effectively manage any risks that may lead to an adverse impact on the environment.

The company actively advocates recycling and management of wastes, the protection of biodiversity and fragile ecosystems, practical reduction of greenhouse gas emissions to mitigate the rate of climate change, and the monitoring and minimization of pollution sources as part of the company's aspiration towards environmental stewardship.

TSH Resources Berhad comprehensively adopts the implementation of this policy as part of its initiatives on corporate responsibility and sustainable business practices.

Sincerely,

Dato' Tan Aik Sim  
Managing Director
